Dear Friends:

Congratulations for receiving the 2015 Roofer People's Choice Award from the Bradenton Herald. Floridians like you are helping to make our state the best place in the world to raise a family and have a great career.

Florida businesses have created a total of 879,000 private-sector jobs since December 2010. Job creators have succeeded because we are building an environment where job growth is possible by cutting taxes over 50 times. Cutting taxes is important because we know that you can spend your money better than government can. This is why we will continue to work with your Legislature to keep cutting taxes and give more money back to Florida families. We will also be working with the Legislature to continue to make important investments in our schools. We must give our students every opportunity to succeed, because we know that a great job starts with a great education.

Thanks to you, Florida is becoming the best place in the world for job creation, and we will keep working to provide Floridians with a business climate that generates more opportunities today and for future generations.

Sincerely,
